DocuCapture™ is an intelligent digital Electronic Document Management (EDM) solution designed to centralize, secure, and enhance all of an organization's documents (company, government agency, private institution, NGO).

It simplifies processes, protects sensitive data, and manages operations in full regulatory compliance, while supporting digital transformation and organizational performance.

Key Features

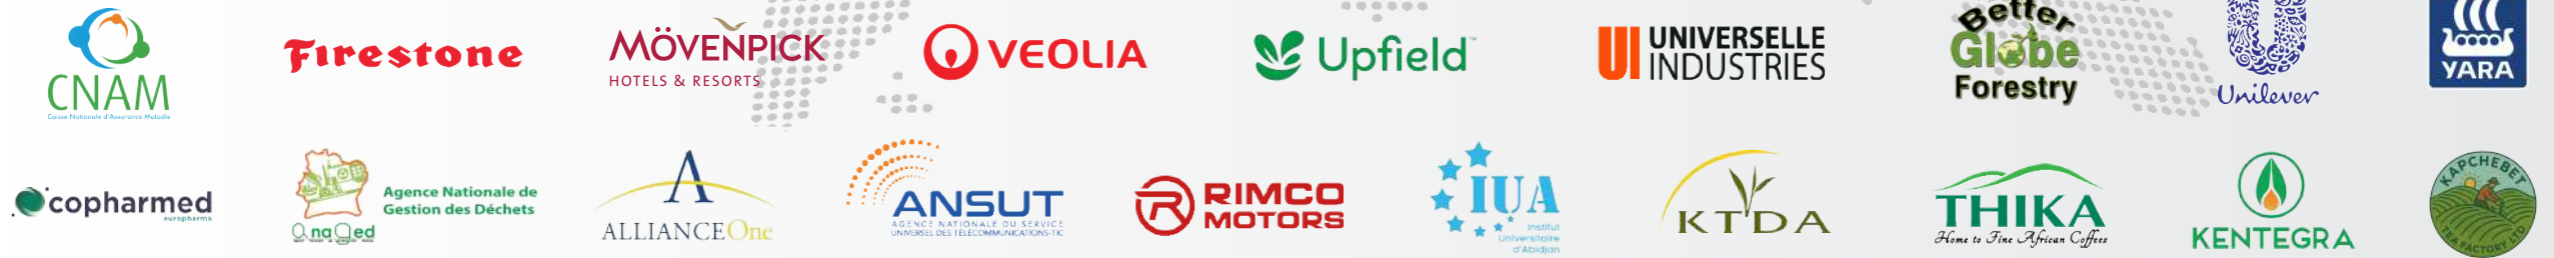

1. Intelligent Multi-Channel Capture: Scanning (scanner, mobile, webcam), automatic import (emails, ERP, CRM, cloud), and OCR to make documents usable.
2. Advanced Classification & Search: Automatic indexing, customizable folder structure, and instant multi-criteria search.
3. AI Enabled with very powerful features like summary, prompt search on one document or documents combined.
4. Security & Compliance: Data encryption, access rights management, audit log, legally admissible archiving, GDPR compliance, ISO 15489, NF Z42-013.
5. Collaboration & Workflow: Secure sharing, annotations, version control, automated approval workflows, real-time notifications.

6. Multiple Electronic Signatures: Sequential or simultaneous signing with OTP security, real-time tracking, and generation of certified documents.
7. Dashboards & Monitoring: Document workflow tracking, usage statistics, performance indicators, and alerts.
8. Full Accessibility: Secure access from any device, cloud or local server hosting, real-time synchronization.

Advantages of DocuCapture™

- ✔ **Time savings and increased productivity**
- ✔ **Enhanced security and complete traceability**
- ✔ **Intelligent centralization: zero loss, zero duplication**
- ✔ **Guaranteed regulatory compliance**
- ✔ **Improved decision-making**
- ✔ **Reduced paper and storage costs**
- ✔ **Contribution to a responsible digital transition**

DocuCapture™ is not just an EDM (electronic document management) system. It is a strategic lever that transforms document management into a sustainable competitive advantage.
